

The Village Condominium Association

Doors (Inner: Front and Rear)

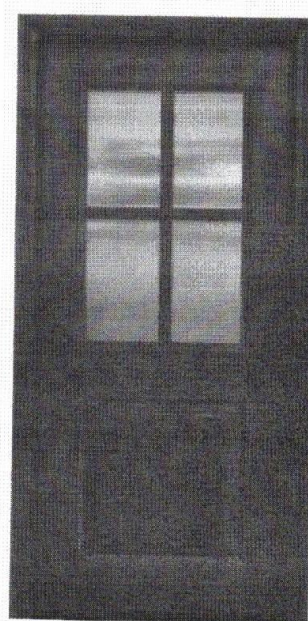

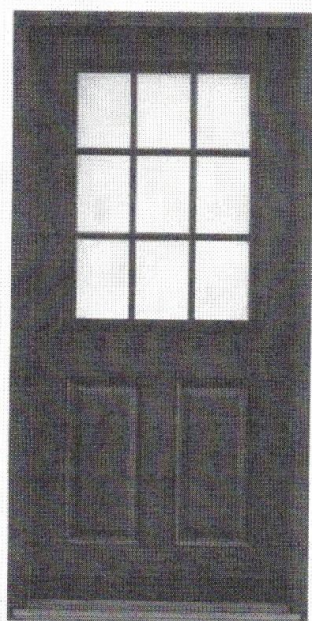

Use these specifications in conjunction with the document *Structural Modifications: General Requirements*.

- Doors must conform to the styles shown in the illustrations below.
- Material: wood, metal, composite or fiberglass.
- Color: black.
- Original thresholds may not be altered without approval. New thresholds may be installed over the existing one with a pre-hung door. If a threshold is damaged and needs to be replaced, please contact the office for that repair before installing a new door over it.

The following styles have been approved.

Approved Front doors

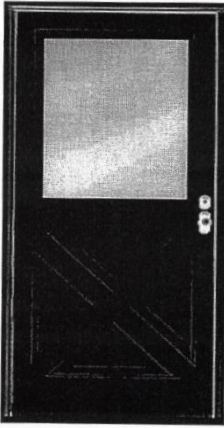

Approved Rear Doors

Storm/Screen Doors

- All units must have storm doors.
- Style: Front and rear storm doors must be consistent with the illustrations. Front door must be a half light door and the rear must be a $\frac{3}{4}$ light door.
- Color: black.
- Original thresholds may not be altered without approval. New thresholds may be installed over the existing one with a pre-hung door. If a threshold is damaged and needs to be replaced, please contact the office for that repair before installing a new door over it.
- The upkeep of storm doors is the unit owner's responsibility.
